Legacy Automotive Parallel NOR Flash MPN Terminations (Extended)

PCN: 32160

Published: 2016-12-05

Type: End of Life

Description: In an effort to maximize manufacturing efficiency for Micron's NOR Flash memory product line, and to better align with industry trends towards higher-density memories, Micron will be discontinuing production over the coming years of NOR Flash devices produced in its Fab-13 Singapore facility. This discontinuance action will allow Micron to better focus its efforts on supporting its competitive, industry leading 45nm high-density NOR Flash products

The Automotive grade products contained in this notification provide a Last Time Buy in March 2018, and a Last Time Ship date in June 2021.

Micron recommends order placement well in advance of the last-time buy date in order to align availability of product.

Micron is taking these actions to better focus efforts on supporting higher density NOR Flash products that deliver the most value to our customers, and we encourage customers to consider using one of Micron's 45nm NOR Flash products for any new application or design.

Reason: Manufacturing Efficiency

Product Affected: Parallel NOR Flash family M29W, M29DW, M29F, M58BW, MT28G
